CMCC is bridging gaps in our community by bringing people together to develop relationships that create peace—because we are **better together**.

As community leaders we believe that we have a responsibility to the well-being of our entire community. Where differences create tension among us we will work to develop relationships, create peace, bridge gaps and bring people together. When the leaders work together so then can the people of our community work together. All of us are better together.

**“If we have no peace, it is because we have forgotten that we belong to each other.”**

**- MOTHER TERESA**

We see that there are walls of cultural tension that continue to stand through a lack of cross-cultural relationships. This community cannot thrive while there are walls of misconception, suspicion, indifference toward each other's needs, and many more—each wall rooted in fear. Our coalition aims to break down these walls by bringing people together in the service of each other.
